

LINK GENERATION GUIDE

1 Log into your account on Monki Rep and navigate to your 'In Progress' tab. Click on 'Generate Links' to access the Link Generator.

2 Easily generate your personalised tracking links for all products you will be promoting. The more links you include, the greater chance of driving more traffic and sales. Include your custom tracking links (shortened slinks links) in all promotion including social media and blog posts that you have agreed to share.
